Wooden boxes

Schreibers Packaging

We are a third generation familyowned and -driven company. We proudly produce and deliver wooden boxes and displays to all of Europe. Throughout the years, our company has evolved from being a small furniture workshop to producing wooden boxes and displays in the thousands.

Schreibers Packaging is run by Lars Schreiber. Having production, sales, and development under the same roof gives us the opportunity of managing every single order closely. Due to the fact that Schreiber Packaging is a family business we provide safety when it comes to delivery and quality. Every single person who works here will go the extra mile to make sure that all boxes are sent at the scheduled time and of our wellknown quality.

We are specialists in unique displays and packaging solutions. Everything is produced from Nordic wood – sustainable and ecofriendly of course. We manage both large scale quantities as well as unique products such as exhibition designs.

With product development and production in-house we are extremely competent in tailoring a unique solution to match your needs.

Wooden boxes

Special

Do you not see a wooden box that matches your product? Why don't we make one for you. We have made many different and unique models such as gift boxes, trays, meter-boxes, coffins, and bags – all to suit your creative ideas. We are always searching for the newest trend within wooden packaging, and we would love to help you reach the exact product you need.

Design

Spacers

Spacers come in many different shapes and sizes. We stock spacers in both cardboard and plywood. Our fixed spacers seem to be the popular choice with our customers because they prevent bottles from breaking. We cut out grooves in the wood and insert the wooden spacers. If you prefer loose spacers this is also possible.

Stain

Our water-based stain leaves the wood with a warm and rustic look. As a standard you may choose from the colors brown, black, and grey. But we can easily get other colors home for you as well. When staining the wood, we simply lower it into our large tanks of stain and the wood is then left to dry fully on a grit where any leftover stain flows back into the tank. With the grey and brown stain, the structure of the wood shows clearly through it so if you love wooden structures as much as we do this may just be the perfect choice for you. Our black stain suits our customers who want a dark and stylish look. Don't worry - the wooden structure still shines through the black stain as well.

Rope

If you want to make carrying the wooden box easier why don't you add a rope to it. We only use strong ropes made of cotton. They come in the colors nature, white, or black. The ropes are inserted here so the boxes are ready when you receive them.

Screen print

Our old-fashioned screen print is still one of our customers' favorites. After being manually painted by hand the parts are placed in a heater which hardens the paint. The result speaks for itself – bright clear colors that really stand out. Screen print works best with 1-3 colors and with logos without too many details. We never compromise with the colors and clarity of your branding.

Digital print

Our digital printer brings out even the most detailed images on wood. Many of our customers now choose a sustainable wooden display instead of the standard cardboard display. But since branding is now such a big part of our customers' image, they often find our digital printer suitable for ensuring this. We can print large scale logos, pictures, and stories – practically anything can be printed on wood.

Our digital printer makes it possible to visualize multiple-colored prints with unlimited details.

Burning

This method provides your wooden boxes with a rustic and rough look. We burn all exterior sides - lid and bottom included. It is still possible to add a logo to the box.

Spraypaint

More and more of our customers prefer their wooden boxes painted in the company colors or maybe just a plain white. We spray paint the wood for an exclusive look, and it often helps the boxes stand out in the crowd. Consider finishing the paint with some clear varnish to make the materials even more suitable for everyday life in a retail store.

Alpha

Made of pinewood with a 3mm sliding lid of plywood or wood fiber. The lid also comes with cutouts of your choosing.

Item no	Bottles	Int. dimensions	Units/pallet
2033-001	1	H332 x W85 x D85mm	456
2033-002	2	H332 x W172 x D85mm	252
2033-003	3	H332 x W252 x D85mm	174
2033-006	6 (1 layer)	H332 x W505 x D85mm	96
2033-606	6 (2 layers)	H332 x W252 x D170mm	88

Beta

Made of pinewood with a 2mm sliding lid of acrylic.

Item no	Bottles	Int. dimensions	Units/pallet
2533-001	1	H332 x W85 x D85mm	456
2533-002	2	H332 x W172 x D85mm	252
2533-003	3	H332 x W252 x D85mm	174
2533-606	6 (2 layers)	H332 x W252 x D170mm	88

Bacchus

Made of pinewood with a split front. The upper lid is nailed onto the box and the lower lid is inserted by you when the boxes are packed.

Item no	Bottles	Int. dimensions	Units/pallet
1543-001	1	H332 x W85 x D85mm	456
1543-002	2	H332 x W172 x D85mm	228
1543-003	3	H332 x W252 x D85mm	166
1543-004	4	H332 x W332 x D85mm	126
1543-006	6 (1 layer)	H332 x W505 x D85mm	92
1543-606	6 (2 layers)	H332 x W252 x D170mm	96

Classic

Made of pinewood with a split front. After placing your products in the box, you nail the split lid on to the front yourselves. This model is ideal when the box must be packed several times.

Item no	Bottles	Int. dimensions	Units/pallet
1046-001	1	H342 x W85 x D85mm	418
1046-002	2	H342 x W167 x D85mm	252
1046-003	3	H342 x W252 x D85mm	182
1046-004	4	H342 x W332 x D85mm	126
1046-006	6 (1 layer)	H342 x W505 x D85mm	108
1046-606	6 (2 layers)	H342 x W252 x D170mm	88

Magnum

Magnum equals the size of the box. These boxes are often used for wine and champagne bottles of 1,5 liters. Magnum boxes come as Alpha, Bacchus, and Classic. You decide what your magnum box should look like.

“

All boxes are suitable for staining or painting and can be delivered with or without a robe handle - to match your needs.

”

Beer

Boxes for beer come in many different shapes and sizes. Some customers prefer a handle and inserted spacers for the bottles. We can also make crates to lay the bottles in – perhaps with some wood wool to protect them. Or what about a special designed box for 2 bottles and two glasses? We love to learn more about your visions for your next beer box.
